For more information: 970-946-1481

CHRONIC

EQUALIZER

RAFF GOOFY X OUT OF BOUNDS (doe)

FF Goats began breeding goats 5 years ago as a 4H breeding project for Paul Farrah. The start of our doe herd was purchased from the Heersink ranch. The does are bred to national show level bucks. Although the herd is small, the quality is good. Last year 50 % of our wethers made the grand champion drive in their respective county fairs. The quality of the kids this year far exceeds any previous years. We strive to not only sell you a goat, but to help you raise and show your project animal.

Can't make the sale? Early viewing and bidding can be done by appointment only and will require a \$50.00 non-refundable deposit to bid on an animal. Call for more details.
