

# Count Your Pages

## Library Exploration:

The local library is full of possibilities and a great place to jump start your imagination. They offer activities and resources in addition to a grand selection of books. Take time during the break to check them out and see what you discover.

## Challenge Your Norm!

This break, check out your local library to find a different genre or type of book than you would normally read. Challenge yourself as well to spend time reading at least several smaller books or one chapter book during the break!

*Bonus: Challenge your parents to read with you during the break and see who can read the most pages!*
