

BREAK ACTIVITIES CREATIVE STATION

Your holiday break may already be filled with wonderful activities or you may have time on your hands to explore. If you end up looking for some hands-on STEM projects, then check out some of these activities or create some of your own!

Coin Art:

Supplies: Miscellaneous coins, glue, paint, brushes, cardboard, scissors, cans, ruler, pencil, etc.

Ideas: Utilize the coins to make fun coin art designs on cardboard cutouts or cans. Then you can paint the coins or leave them naturally colored as well.

Imagine Your Own:

Supplies: Kleenex box, rubber bands, paperclips, paper towel or toilet paper tubes, glue, paint, brushes, cardboard, scissors, cans, ruler, pencil, etc.

Ideas: Utilize the supplies to make your own design (maybe a boat or binoculars, etc.).

Popsicle Picture Frame:

Supplies: Popsicle sticks, stickers, glue, paint, brushes, string, scissors, ruler, pencil, etc.

Ideas: Utilize the popsicle sticks to make a picture frame and attach string to hang the frame. Take a picture of the family during a holiday activity to attach and hang up for the year.
